Sheridan Street
Eastbound lanes closed
- 6** **Spring 2027**
Project complete

Note: Schedule is subject to change due to unforeseen conditions and/or weather delays.

PURPOSE

The Sheridan Street Bridge over the Florida's Turnpike is owned by Broward County's Highway and Bridge Maintenance Division which has retained Structural Technologies to raise the bridge to meet current vertical clearance standards. The bridge will be raised 2 feet to provide a 16'-6" clearance, reducing the risk of future vehicle impacts and structural damage. Construction will be completed in two phases. In Phase 1, the westbound lanes on Sheridan Street will be closed, and the eastbound side will be reconfigured to carry one lane of traffic in each direction. In Phase 2, the eastbound lanes will be closed, and the westbound side will be reconfigured to carry one lane of traffic in each direction.

SHERIDAN STREET IMPACTS

Traffic Impacts

- Temporary lane closures
- Nightly closure of all lanes to implement traffic diversions

Pedestrian Impacts

- Signed pedestrian detours
- Continued access to crossings

Access Impacts

- Business and residential access maintained

Transit Impacts

- Westbound bus stop in front of John Williams Park closed between July and October 2026

FLORIDA TURNPIKE IMPACTS

Traffic Impacts

- 3 Lanes maintained in each direction (daily)
- Nightly closure of 1 lane in each direction to implement traffic diversions and installation of jacking support system
- Full FTE Closure will be needed for bridge lifting operations from 10:00 PM to 4:00 AM for up to 12 nights over the duration of the project
